SUMMARY

Data analyst and AI evangelist turning ambiguous problems into scalable data platforms, AI products, and measurable revenue, cost, and productivity gains across marketing, finance, and operations

WORK EXPERIENCE

Chief Data and AI Officer

2023 - Present

Promota AI

- Designed, built, and deployed all data-related technology and deliverables
 - Developed customized dashboards and data visualizations for clients
 - Developed spatially-constrained clustering model to determine dense groupings in a geographic region to optimize targeting of best potential customers
 - Utilized QGIS software to customize shapefiles for client dashboards
 - Personally chose LLM model and designed prompts to allow effective online marketing outreach
 - Built raking algorithm, using R, to rebalance data from web scraping to better align with target demographics
 - Used neural net algorithm with past successful customers to determine new potential targets from broader pool
- Utilize AI Agents to customize and iteratively improve ads to better target customers and lower CPC for b2b marketing clients
- Developed trending AI analysis to find latest trending topics related to clients' ad copy and tailor messaging to utilize viral content for increased ad exposure
- Designed and built document analyzer to discover waste, fraud, and abuse in data for county government using LLMs and Python Pandas
- Utilize SQL for custom data pulls from company database for use in algorithms
- Deployed custom deliverables via Github, AWS and Shiny Server

Instructor of Data Analytics Bootcamp

2024 - Present

Upright Education

- Oversaw other data analytics instructors and helped train them
- Held a 98% approval rating from students based on post-cohort surveys
- Developed new data analytics curriculum to replace outdated curriculum
- Teach and mentor aspiring data analysts in Python, R, SQL, Tableau, and Excel, emphasizing best practices used in industry-scale analytics teams in evening bootcamp classes
- Translate complex statistical and data concepts into clear, actionable frameworks, raising cohort completion and job-placement readiness
- Built strong student pipelines through career advising and collaboration with career services and local employers to expand internship and job opportunities

Professor

2021 - 2023

Ave Maria University

- Taught Mathematics and Accounting courses (150+ students), integrating data-driven teaching methods and digital tools to improve comprehension and outcomes
- Advised the Business School on shaping an undergraduate data analytics track, selecting tools, languages, and partnerships to align curriculum with employer demand
- Built strong student pipelines through career advising and collaboration with career services and local employers to expand internship and job opportunities

NAEK2, LLC

Valuation Consultant

2008 – 2019

- Advised early-stage and growth companies on valuation, capital strategy, and investor readiness, particularly within the University of Illinois Research Park ecosystem
- Built financial models and projections (DCF, market comps, closely held business valuations, minority discounts) used for investor negotiations, awards submissions, and strategic planning
- Led to awards and financing for multiple start-up firms

PROJECT EXPERIENCE

NAEK2.com

- Personal website
- Contains selection of Javascript, ReactJS, Typescript, and Solidity projects

Generative AI Document Analysis App

- Document analysis tool written in Python, utilizing Langchain, Chroma vector database, and Generative AI Large Language Model (one version with ChatGPT and another version with Google's Bard AI)
- Allows user uploading of personal documents for analysis
- User can ask questions of the AI about the document
- Adjustable parameters available to give more or less detailed AI responses
- Link to apps is on personal website under Projects: naek2.com

Launched Private Blockchain Network

- Utilized geth to initialize and launch private blockchain on the Goerli test network of Ethereum
- Created Externally Owned Account
- Initiated mining for the private blockchain

Dispersion Study of Book of the Dead Spells using Tableau

- Utilized Tableau to track and investigate the geospatial and temporal diffusion of spells from the Book of the Dead in Ancient Egypt
- Mapped the sources of every object with Book of the Dead spells by specified criteria using Tableau's geolocation features
- Cross-analyzed the artifacts by time period, location, gender of the owner, and quantity.
- Performed trend analysis through the time periods to see how dispersion developed chronologically

Develop Database of Ancient Egyptian Coffin Texts

- Compiled, digitized, and cleaned over 6,000 lines of data on funerary texts from old, out-of-print research compendiums to allow broader access to researchers
- Joined data from multiple databases into a broader database for more efficient analysis as .csv and Excel files
- On-going process
 - Current work has been on data from only one time period
 - Database will be expanded to include funerary texts from across multiple time periods, including the Pyramid Texts of the Old Kingdom, the Coffin Texts of the Middle Kingdom, and the Book of the Dead from the New Kingdom and Ptolemaic Period

EDUCATION

MIT

MicroMasters program in Statistics and Data Science - Online

University of Pennsylvania

Master of Arts in Near Eastern Languages & Civilizations

GPA 4.00/4.00

University of Illinois at Urbana-Champaign

Master of Science in Accountancy

GPA:3.97/4.00

Awards: *Phi Kappa Phi*

Brown University

Bachelor's degrees in Mathematics, Mathematical-Economics, and Egyptology

GPA: 3.81/4.00

Awards: *Magna cum Laude*

Phi Beta Kappa

PROFESSIONAL CREDENTIALS AND AFFILIATIONS

- Certificates in computer programming from ZTM Coding Academy in Javascript, React, Node, Golang, and Network Security
- Registered CPA
- Personal Financial Specialist (PFS)
- CANSLIM investing certification
- Foundations of Data Science (Professional Certificate) - University of California, Berkeley Online

OUTSIDE INTERESTS

- Alumni interviewer for Brown University applicants
